In today's competitive business environment, a new type of "entrepreneurial" leadership strategy is required, quite different from management styles of the past.

Entrepreneurial leadership is leadership that is based on the attitude that the leader is self-employed. Leaders of this type:

- **take initiative** and act as if they are playing a critical role in the organization and energize their people
- **demonstrate entrepreneurial creativity**, search continuously for new opportunities and pursue them,
- **take risk**, venture into new areas and provide strategic direction and inspiration to their people,
- **take responsibility** for the failures of their team, learn from these failures and use them as a step to ultimate success and strategic achievement.

In this two days training workshop on **Entrepreneurial Leadership** you will:

- **Create a compelling vision** that incorporates purpose, core beliefs and values, essentially by revisiting the original mission statement of the organization
- **Develop innovation-driven strategies**
- **Design a complex and innovative web of relationships**, inside and outside the organization
- **Create a strong focus on uniqueness and differentiation** of every person, while nurturing a strong sense of interdependence, inside and outside the organization's culture.
- **Encourage spin-off enterprises** on the edge

This two days workshop will be facilitated by none other than the master of entrepreneurs himself, **Vadim Kotelnikov**. Vadim is the perfect case study of an entrepreneurial leader; just 'google' entrepreneurial leadership and you will find him. With Vadim at the helm, the workshop promises to be **lively, interactive** and **filled with juicy insights** into implementing and growing entrepreneurial leaders in your organization.
